

How to Apply EmoniNail™ Treatment

Step 1

Cut and File Infected Nail

Reducing Nail Mass Helps Treatment Penetrate to Nail Bed

Step 2

Thoroughly Wash Infected Area and Dry Completely

If Possible: Use Warm Water to Loosen Skin Around Nails.

Step 3

Apply Treatment to Entire Nail

Focus on the Front, Side, and Base of Nails.

Step 4

Allow Treatment to Dry Completely – Apply Twice Daily

Once Fungus is Dead, New Clear Nails Will Grow in the Place of Infected Nails.
